ISRAEL'S TOP INDUSTRIES PUSHING THE BOUNDARIES OF INNOVATION

THE START-UP NATION

Over 1300 Start-ups in 2021

- ▶ 3rd most listed country on NASDAQ
- ▶ 33% of the cyber unicorns in the world are Israeli
- ▶ Ranked #3 globally in Medtech and Lifescience IP per capita
- ▶ >10 start-ups Surpass \$1Bn value in 2021

Expenditures on R&D as a percentage of GDP

ISRAEL STANDS OUT

- ▶ Israel has a **centralized**, community-based and high-quality healthcare system.
- ▶ Over 98% of the population is covered by **full health insurance**
- ▶ Israel's four HMOs have been accumulating medical **digitized data** for over 25 years
- ▶ Over **1600** innovative Health Tech companies
- ▶ More than **70 innovation hubs**
- ▶ Dozens of **R&D** centers
- ▶ Over **250 active VCs** in healthcare
- ▶ Over 7300 **technology** companies

TEL AVIV SOURASKY MEDICAL CENTER- ICHILOV

The Medical Center features four main hospitals:

- 01 Ichilov General Hospital
- 02 The Dana-Dwek Children's Hospital
- 03 The Lis Maternity and Women's Hospital
- 04 The Rehabilitation Hospital

SERVING

- > 2M large TA population
- > 1M TA daily visitors

350,000

Total Square Meters

TEL AVIV SOURASKY
MEDICAL CENTER
ICHILOV

TEL AVIV SOURASKY MEDICAL CENTER-ICHILOV

One of Israel's largest and most advanced full-service healthcare treatment and research institutions.

Leading multidisciplinary academic medical center. Highly Technological

Largest emergencies hospitals in the world

Research (basic, clinical, translational),
Bioconvergence

TEL AVIV MEDICAL CENTER IN NUMBERS

61

Departments

1,815

Physicians

210

Outpatients Clinics

1,883

Nurses

1,523

Beds

4,380

Healthcare Professionals
Director & Staff

R&D DRIVING MEDICAL EXCELLENCE

700 researchers and clinical coordinators

56 research group laboratories

8000 sqm research facilities

>200 collaborative projects with health organizations across the globe

>100 start-up companies working within TASMIC

7 new spin outs in 2021

>2300 clinical trials

Data lakes growing at **2,000,000** new EMR entries/year

>300 contracts with HealthTech companies

OVERCOMING BARRIERS: A PATHWAY TO SUCCESS

01 Patient Engagement

02 Regulatory Reforms

03 Increased Funding and Investment

04 Intellectual Property Support

05 Risk-sharing and Collaboration

06 Education and Training

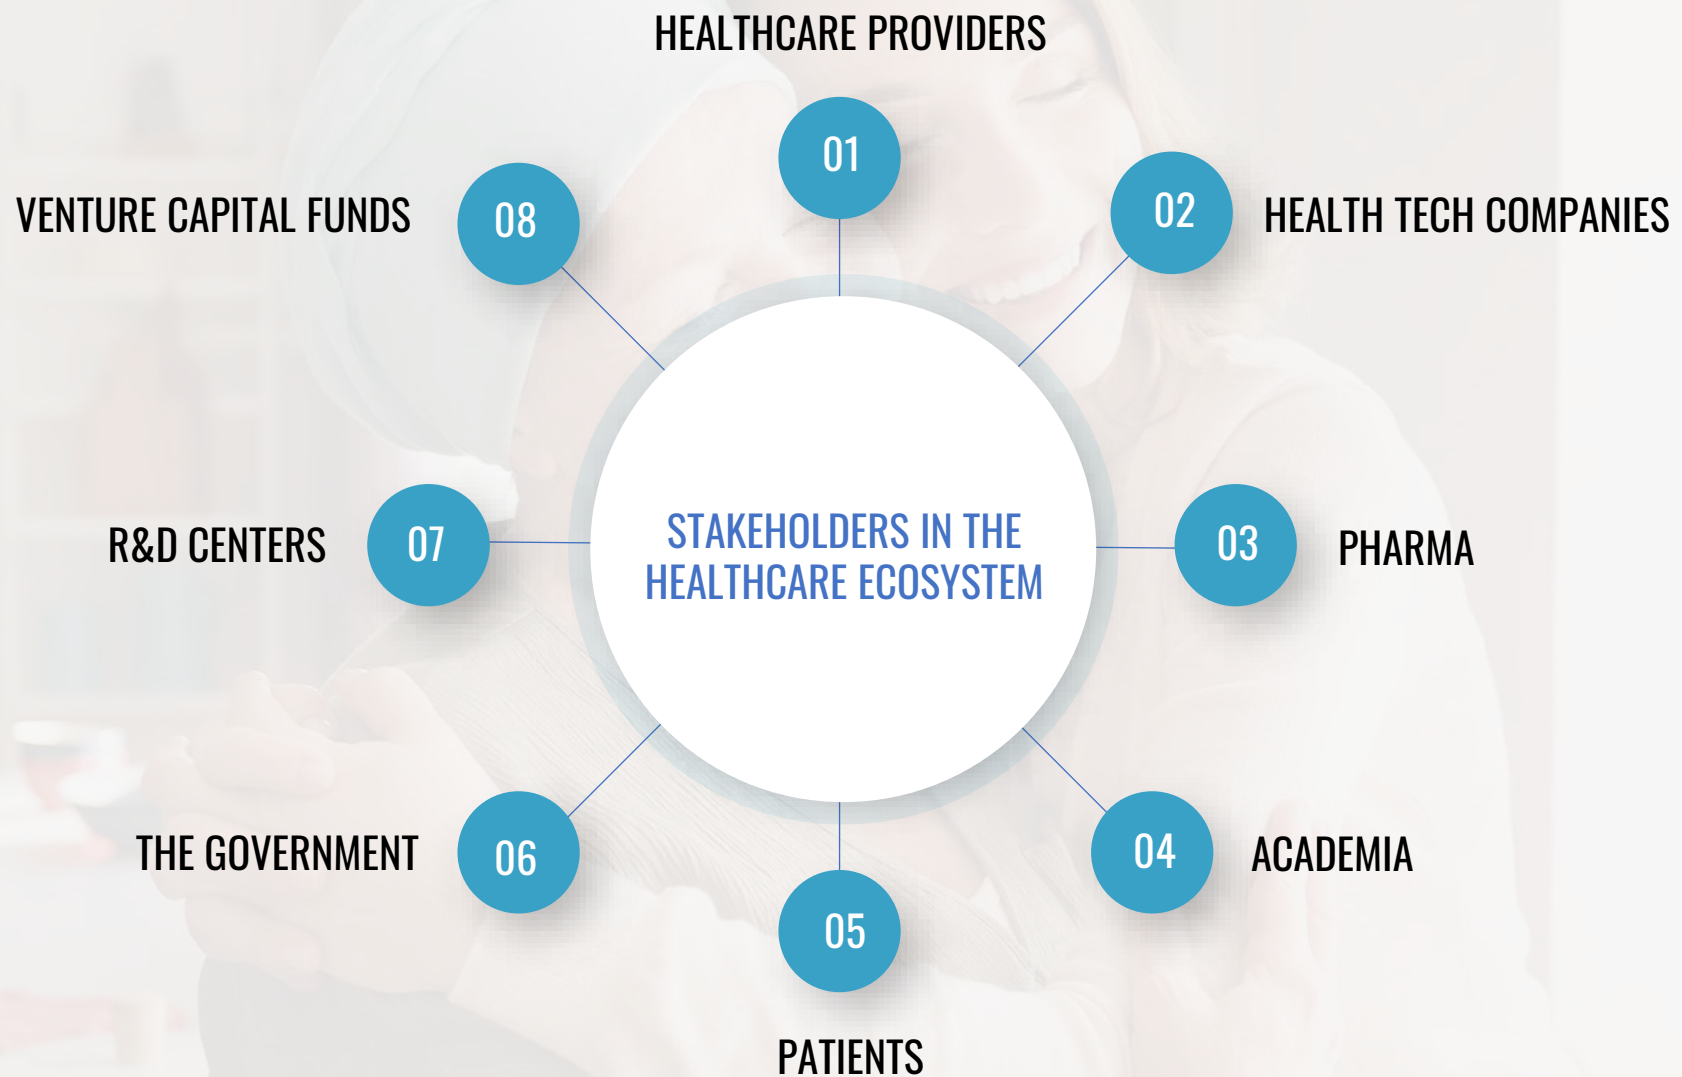

07 Addressing Ethical Considerations

08 International Collaboration

HOT SEGMENTS IN HEALTH INNOVATION

- ▶ AI and Machine Learning technologies transform healthcare
- ▶ Advanced Diagnosis (multiomics)
- ▶ Precision Medicine (+Teranostics)
- ▶ Robotics & IoT
- ▶ Virtual, Metaverse, Saptial, AR/VR/XR
- ▶ Advanced Therapies, Immunotherapy
- ▶ Nanomedicine (+nanobots)
- ▶ Gene Editing
- ▶ Tissue rejuvenation
- ▶ Cyber
- ▶ Insurtech

TEL AVIV MEDICAL CENTER: I-MEDATA REVOLUTIONIZING HEALTHCARE WITH AI

I-Medata AI Center: Advancing healthcare with cutting-edge AI solutions.

Holistic approach to AI for healthcare needs.

Diverse team of experts: data scientists, engineers, physicians, statisticians, and more.

Unlocking valuable insights through data revolutionizes patient care and clinical decisions.

Global network of partners: digital health startups, companies, research institutes, and HMOs.

ISRAELI ACADEMIA: KEY DRIVER FOR FOSTERING ENTREPRENEURSHIP

US Unicorn Founders Ranking By Undergraduate Degrees

Ranking of foreign undergraduate programs by the number of US unicorn founders

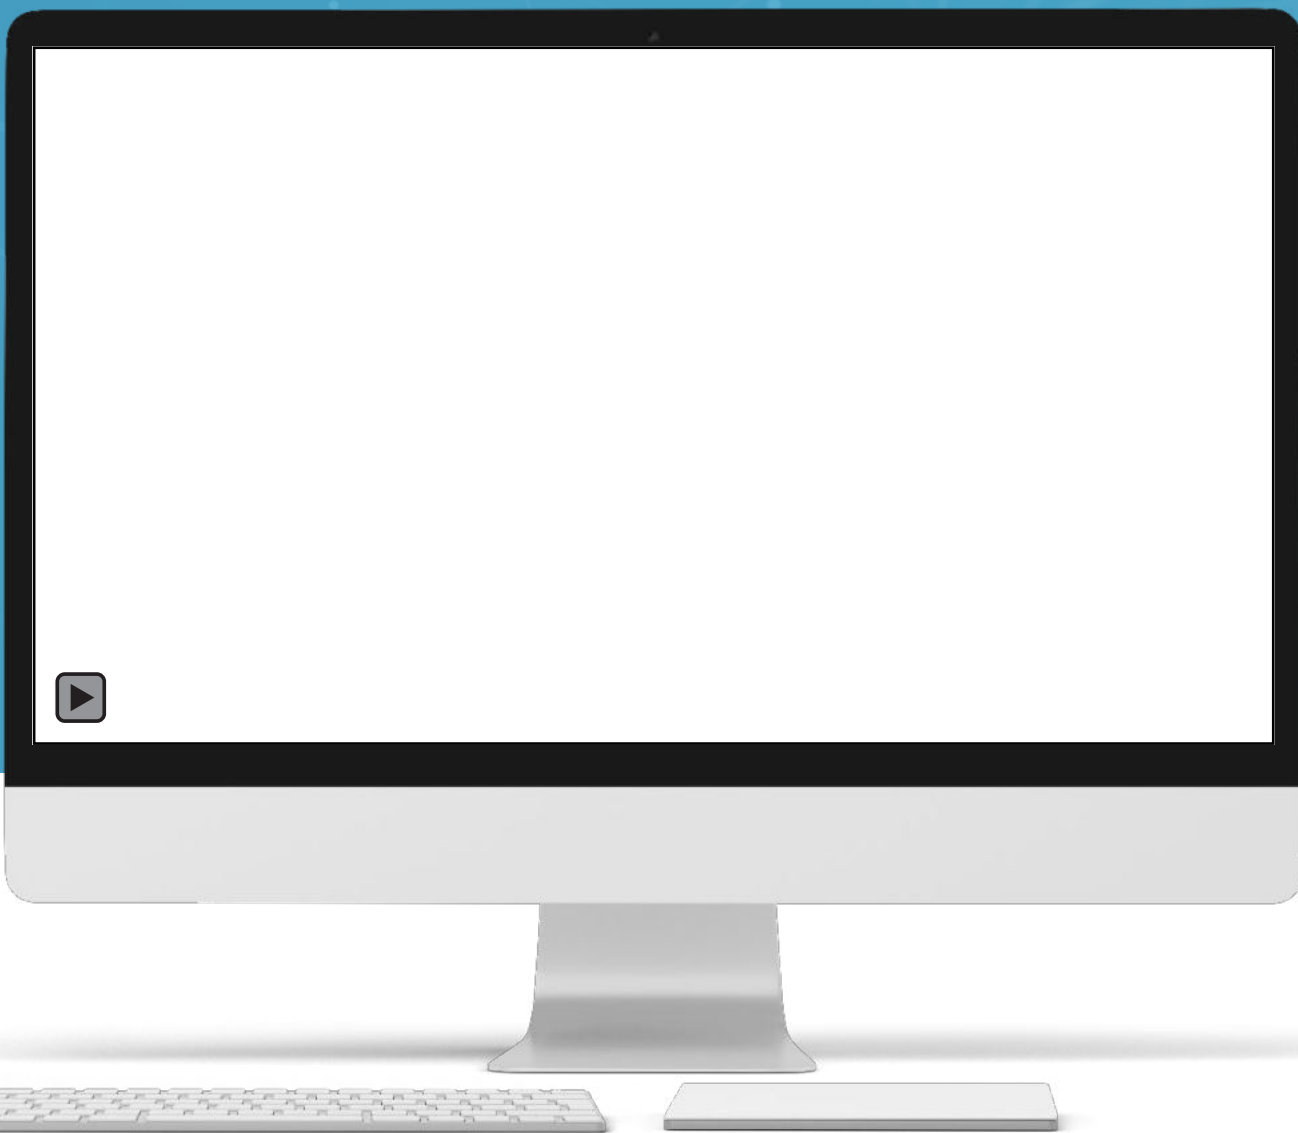

Data covers 1,110 US-based VC-backed companies that became unicorns between 1997-2021 and 2,975 of their founders. 608 founders hold an undergraduate degree from a non-US university. The figure shows top 15 non-US universities by the number of unicorn founders who are alumni of given universities.

INNOVATION CENTER - IMED

TEL AVIV SOURASKY
MEDICAL CENTER
ICHILOV

THE MEDICAL CONTROL TOWER:

Dynamic data center with real-time actionable insights

Enhances patient flow, reduces treatment time, and improves operational efficiency

Identifies and resolves bottlenecks, allowing for faster decision-making

Provides operational predictions for better planning

Improves overall patient experience through optimized processes

REVOLUTIONIZING EMERGENCY ROOM EXPERIENCE: DIGITIZED CHECK-IN AND SELF-TRIAGE

Replaces traditional office admission with a streamlined kiosk process. Patient registration is via facial recognition and a short questionnaire. All documents are scanned and saved to their Electronic Medical Record (EMR). The kiosk is equipped with a touch screen, camera, scanner, and printers.

GOALS

Save waiting time

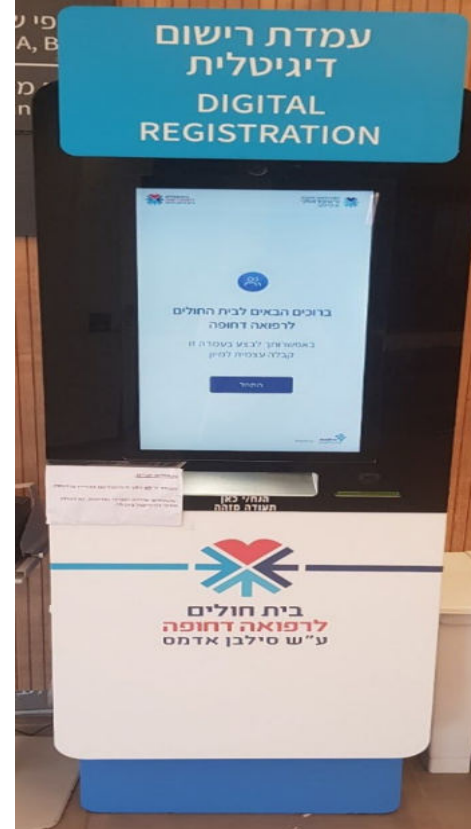

Streamlining administration process

Improving the patient experience

Innovation

AI IN RADIOLOGY – AIDOC

Key Features of AiDoc in Radiology:

Enhanced diagnostic accuracy for precise diagnoses

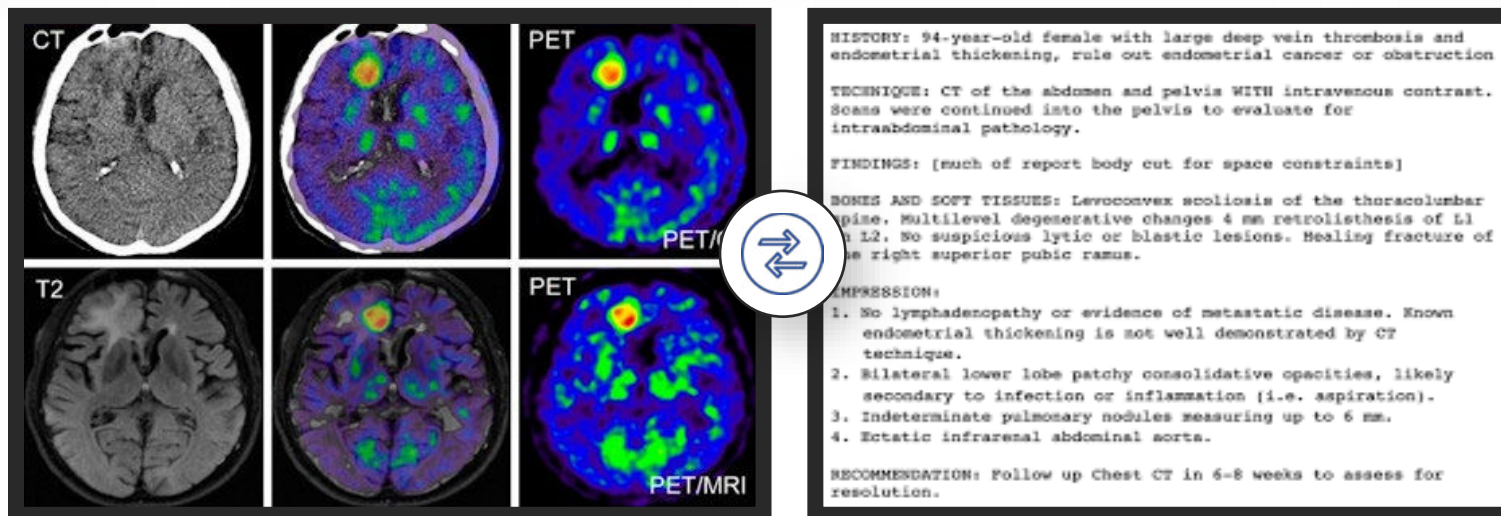

Personalized treatment options based on AI-driven insights

Accelerated diagnoses enable doctors to review a higher number of patients per day

AiDoc specializes in detecting acute findings in CT scans

LEVIN CENTER OF SURGICAL INNOVATION & 3D PRINTING

Digital Visualization

3D Printing & Planning

Custom Implants

VR/AR

Orthotics: Patient Specific Splints

IMPLEMENTING SOLUTIONS FOR SUCCESS

Cultural Shift

Foster a culture of innovation and change

Strong Leadership

Impose effective leaders to drive innovation

Resource Allocation

Allocate sufficient resources for innovation initiatives

Infrastructure Development

Foster collaborations for doctors, startups, and biomedical engineers.
